CT GUIDED SPINAL INJECTION PREP SHEET

Patient name: _____

Appointment date: _____

Appointment time: _____

Check-in time: _____

Your healthcare provider has scheduled you for a CT guided injection of an area in your spine.

The following is some information for you regarding this procedure:

- This procedure is done by a radiologist (Physician of Radiology).
- The radiologist will numb the area of concern with a local numbing medication, so you will be awake during the procedure.
- You will have to lie still during the procedure.
- Most procedures take approximately 30 minutes.
- The radiologist will come in prior to the procedure to go over everything with you. You may ask questions at this time regarding this procedure.
- You may not take any type of blood thinners one week prior to the procedure.
- You must bring someone with you to drive you home after your injection.
- If you are unable to keep this appointment time, please call the radiology department as soon as possible (541-947-2114 ext. 233).

If you have any further questions regarding the procedure, please ask your healthcare provider, or you may call the radiology department.

Thank you.
